		MANUAL OF ENVIRONMENTAL HEALTH PROCEDURES			
Section	Emergency / Disaster	Date	September 7, 1999	Procedure #	E-3
Subject	SG-3A Instructions For Fire Damage Assessment For Retail Food Stores, Food Service Establishments, Food Processing Plants, and Food Warehouses			Page	1 of 1

During a fire in a structure that contains foodstuffs, the likelihood of those food items suffering contamination is great and may render those items unfit for human consumptions. Based on the size, nature and characteristics of the fire, the sanitarian shall initiate the procedures on the attached [SG-83A](#) to the degree required to eliminate a threat to the public health.
