		MANUAL OF ENVIRONMENTAL HEALTH PROCEDURES			
Section	Recreation	Date	October 20, 1987	Procedure #	R-3
Subject	Lifeguards Required to Stay in Chairs or on Platforms During Their Watch			Page	1 of 1

Lifeguards are expected to maintain vigilance from their elevated watch platforms or chairs during the time pools are occupied. Should an emergency occur requiring the lifeguard to leave his post, he must be relieved by another lifeguard or the pool cleared of all swimmers during the period of his absence.

This requirement is to be satisfied unless the lifeguard is directly involved in swimmer rescue efforts.
